Vadodara, Gujarat, India

Professional Summary

CSE undergraduate and Full Stack Developer with hands-on experience building scalable web applications using JavaScript based frameworks. Strong foundation in software engineering, responsive UI development, backend architecture, and problem-solving with a focus on building clean and user-centric products. Passionate about contributing to collaborative development teams while continuously enhancing technical expertise.

Education

B.Tech in Computer Science and Engineering (CGPA: 9.11 / 10) 2023 – 2027
Charotar University of Science and Technology (CHARUSAT) *Anand, Gujarat*

Experience

Trionic Technologies Dec 2025 – May 2026
Software Development Intern *Surat, Gujarat (Remote)*

- Developing scalable EdTech platform features using Next.js, TypeScript, FastAPI, and modular frontend architecture
- Collaborating on responsive UI development, reusable components, API integrations, and modern user experiences

Bharti Soft Tech Pvt. Ltd. May 2025 – Jun 2025
Full Stack Development Intern *Vadodara, Gujarat*

- Built a full-stack Resume Builder platform using MERN stack with JWT authentication and responsive UI
- Designed RESTful APIs, dynamic resume templates, and PDF generation functionality

Freelance Full Stack Developer May 2025 – Present
Self Employed *Remote*

- Developed production-grade SaaS platforms and client-focused web applications with authentication, dashboards, and payment integrations
- Built CRM platform, e-commerce system, SaaS, and Pine Script-based trading indicator for freelance clients
- Delivered scalable and user-centric web solutions by collaborating across frontend, backend, database, and deployment

Projects

ScrapeX (SaaS Workflow Automation Platform)
Next.js, TypeScript, Prisma ORM, PostgreSQL, SaaS Architecture

- Built a workflow automation and web scraping platform with drag-and-drop workflow builder and scheduled execution
- Implemented a scalable pay-as-you-go credit-based billing system with authentication and workflow management

DineDesk (Restaurant POS & Table Booking SaaS)
MERN Stack, Razorpay, Google Auth, SaaS Architecture

- Developed a SaaS-based restaurant POS and table booking platform with modular dashboard functionality
- Integrated real-time billing, Razorpay payment gateway, invoice email delivery, and table management

JobDekho (Full Stack Job Portal)
React.js, Node.js, MongoDB, Clerk, Tailwind CSS

- Built a full-stack job portal enabling recruiters and job seekers to manage applications and job postings
- Implemented authentication, protected routes, resume uploads, filtering, and recruiter dashboards

Technical Skills

Languages: C++, JavaScript, TypeScript
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, Next.js, Prisma ORM, REST APIs
Databases: MongoDB, PostgreSQL
Tools & Platforms: Git, GitHub, Postman, Vercel

Achievements

- Solved 300+ DSA problems across LeetCode and CodeChef platforms
- Achieved 2-Star rating on CodeChef

Certifications

- **IBM Full-Stack JavaScript Developer** – Coursera
- **AWS Certified Cloud Practitioner** (In Progress)

Co-curricular Activities

- **Web Team Member, AWS Cloud Club** – Contributing to club website development and technical event initiatives
- **Head of Innovation and Incubation, E-Cell CHARUSAT** – Leading innovation and startup-focused initiatives
- **Club Lead, GrowWithGit Club** – Mentoring students in Git, GitHub, and open-source collaboration
